

Hang Tag Vertical

(2.5" x 3.5" Drill hole size and location can be customized)

- SAFE ZONE:** All critical elements (text, logos, etc.) must be kept inside this area to ensure no important elements are lost when the tag is printed. This area is positioned 1/8" inside the top and bottom edges of the tag.
- BLEED AREA:** Background images or graphics should extend to the edge of the tag to ensure a professional, seamless print. This area extends 1/8" from the top and bottom edges.
- TRIM LINE:** The trim line represents where the tag will be cut and indicates the final size of the printed tag. The tag is printed on a standard 3.5" x 2.5" sheet of paper. It is recommended to keep content at least 1/8" from the trim line to avoid being cut off.
